

# PROJECT FUNDING

1. National Highways has a funding pot specifically designated for environment and well-being.

2. The Aquifer Partnership (TAP) has won funding from this pot to make improvements to Wild Park. TAP is made up of The Environment Agency, South Downs National Park Authority, Southern Water and Brighton & Hove City Council.

Brighton & Hove

The Council has been nominated lead partner, working closely with TAP partners to deliver this project

design team

3. A team has been commissioned to design the Wild Park Rainscape.

construction team

4. The next steps will be to apply for planning consent, then appoint a construction team to create the rainscape.

maintenance team

5. Then we will ensure that there is a good maintenance programme in place to make sure everything works as it should.
